Pages and Inserts.

*Over 1500 hand tools  
for home and industry  
... backed by a tradition  
of quality tool-making  
for over 90 years.*

# TERMS AND CONDITIONS OF SALE

## Prices

Net prices are F. O. B. Factory and subject to change without notice. Orders are accepted only on the basis that they will be shipped at prices in effect at the time of shipment. Resale and list prices in this schedule are suggested prices only; as Millers Falls in no way intends to dictate to the Trade handling its products as to what prices they may charge on the resale thereof.

## Terms

Thirty days net or 2% for cash if paid on or before the 10th of the following month from date of invoice.

## Delivery

Title to the products sold hereunder shall pass upon delivery to the carrier at point of shipment. Freight will be prepaid (or allowed at our option) on shipments of 150 lbs. or more to any point in Continental United States or Canada via the lowest routing by either rail or motor truck. Excess cost for specified routings will be charged to the customer. Transportation cost will not be prepaid or allowed via parcel post, express or for shipments less than the 150 lb. minimum weight.

## Time of Delivery

We shall not be liable for failure or delay in delivery due to acts of God, differences with employees, fire, flood or other casualty, government regulations, shortages or failure of raw materials, supplies, fuel, power or transportation, breakdown of equipment or any causes beyond our reasonable control, whether of similar or dissimilar nature than those enumerated.

## Direct Shipments

On direct shipments to distributors' customers a 5% charge will be made on the net amount of all invoices covering items listed in this price sheet. This charge will not apply on repair parts or repairs.

## Service from Warehouses

Warehouse stocks are maintained in Cleveland, Ohio; Chicago, Illinois; Los Angeles, California; and Fort Worth, Texas. Shipments from these stocks are subject to a very reasonable service charge. This charge will be quoted on request.

## Specifications

Standard specifications for each tool shown in this price schedule appear in the No. H-157 Hand Tool Catalog and supplemental catalog pages. No deviations will be made unless severe difficulty is met in procuring certain materials, or improvements in construction and finishes are made.

## Warranty

Every tool stamped with the Millers Falls name is warranted free from imperfections and defects in material or workmanship. Our obligation under this warranty is expressly limited to the following: If any tool proves to be imperfect or defective under conditions of normal use, we agree to repair or replace the tool, if immediately returned to our factory at Greenfield, Massachusetts, transportation charges prepaid. Under no circumstances, however, do we assume responsibility for breakage where flaws do not appear or for tools which have suffered from abusive treatment or which have been stamped with the owner's name, changed or experimented upon. No dealer is authorized to make replacements for us. This warranty is made in lieu of all other warranties, expressed or implied, and all other obligations on our part. We neither assume nor authorize any agent or other person to assume for us any further liability in connection with the sale of our tools.

## Returned Goods

No goods are to be returned to us without authorization from our Sales Department at Greenfield, Massachusetts; if return is authorized, transportation charges are to be prepaid. We shall not be responsible for any goods returned to us without our authorization.

## Parts and Repairs

Parts for repair of every tool shown in this price schedule are available. When ordering, please give the number and description of the part and indicate the type and number of the tool for which the part is needed. Whenever possible, it is recommended that the customer make his own repairs in order to avoid the expense of round-trip transportation for tool handling. When a major repair is necessary by our Factory Service Station in Greenfield, please pack the tool carefully, include a tag with your name and address, prepay the shipping charges and write a covering letter describing the operating difficulty. Please indicate if you want a repair quotation made before work is started. If you send your tool for repair under warranty and if you prepay incoming shipping charges, it will be returned to you with return shipping charges prepaid.

## Taxes

If, under any law now or hereafter passed, we are required to pay or to collect a tax on sales, a use tax or an excise tax, the amount thereof will be added to the price.

## General

All orders are accepted and all sales are made only on the terms and conditions of this price list, regardless of any terms or conditions which may be included in any request for quotations or in any order submitted by the buyer.

# Memoranda on New Tools

To keep you in the most favorable selling situation possible, Millers Falls is pushing an accelerated new product development program that will work for you at the point-of-sale in terms of more sales, bigger sales and more repeat sales. A highly demanding and competitive market requires the very latest in tool developments to stay abreast of the times. For the past few years, new tool announcements have come so frequently from Millers Falls that there has been an inevitable time lag between the introduction of the new item and its inclusion in the basic or general catalog material. Of course, as reprints or new catalog materials are developed, all new tools will be included. Meanwhile, perhaps your own purchasing needs can be effectively served by simply noting below all essential buying information on new tool additions to the line.
